

## Have you considered LASIK?

Laser vision correction (LASIK) is a procedure that can reduce or eliminate your dependency on glasses or contact lenses. This corrective service is available to you and your eligible dependents at a special discount with your Superior Vision plan.

### Is LASIK right for you?

Are you nearsighted, farsighted, or have astigmatism? If so, LASIK may help you regain your vision.

### How does LASIK work?

The FDA-approved procedure reshapes the cornea so light entering your eye is properly focused onto the retina. Vision is usually corrected immediately following the LASIK procedure.

Additionally, there are:

- No authorizations required by Superior Vision.
- No copayments needed.
- Superior Vision members are informed of the exact contracted prices during their initial phone consultation.
