RIDER NO. 6 TO AVAILABLE UNIVERSITY FUND APPROPRIATION

The text of Rider No. 6 to the Available University Fund Appropriation in House Bill 1, 88th Legislature, Regular Session, is as follows:

"Reporting Requirements for System Office Operations and System Initiatives.

In addition to the reporting requirements in Rider 5, The University of Texas System and Texas A&M University System shall report to the Legislative Budget Board no later than December 1 of each fiscal year additional information regarding the use of the Available University Fund for system office operations and system initiatives for the two previous fiscal years, the current fiscal year, and two future fiscal years (projected). The report shall include the following:

- (1) Available University Fund support and maintenance allocations and expenditures for system office operations and system initiatives by activity (which must include an activity for the Board of Regents), including the object of expense detail for each activity, the number of full-time equivalent (FTEs) funded by the Available University Fund in each activity, a detailed description of the purpose and authority for each activity, and a reconciliation between Available University Fund allocations and expenditures each fiscal year including the resulting Available University Fund surplus or deficit;
- (2) A detailed listing of the role and function of any FTEs included in the Board of Regents activity;
- (3) A listing of funds outside of the Available University Fund, including gifts, donations, and other funds outside the treasury, used for each activity each fiscal year; and
- (4) Any additional information requested by the Legislative Budget Board. "

USES OF THE AVAILABLE UNIVERSITY FUND BY THE UNIVERSITY OF TEXAS SYSTEM

BACKGROUND

The *Texas Constitution* (Article VII, Section 18) gives The University of Texas System Board of Regents (Board of Regents) the authority to determine the amount distributed to the Available University Fund (AUF) from the return on investment assets of the Permanent University Fund (PUF), subject to specific constitutional restrictions. The *Texas Constitution* requires that the AUF be appropriated for the payment of the principal and interest due on the bonds backed by the PUF and for the support and maintenance of The University of Texas at Austin and The University of Texas System Administration. "Support and maintenance" is an expansive phrase that describes funding for U. T. Austin and the U. T. System Administration to function and carry out their respective responsibilities. System Administration responsibilities are provided by general law. An AUF expenditure that benefits institutions other than U. T. Austin qualifies as support and maintenance of U. T. System Administration if it reasonably furthers a responsibility of U. T. System Administration, such as providing oversight and coordination of institutional activities or providing services to U. T. System institutions. The AUF may not be used for routine programmatic or operating expenses of institutions other than U. T. Austin.

USES OF THE AVAILABLE UNIVERSITY FUND BY U. T. SYSTEM

The AUF is used for four primary purposes:

- (1) to pay interest and principal due on PUF bonds,
- (2) to provide for academic excellence and other support for U. T. Austin
- (3) to provide for the expenses of U. T. System Administration, and
- (4) to fund U. T. System initiatives.

PUF Debt Service

Under the *Texas Constitution*, the first call on AUF funds is debt service on PUF bonds that provide capital improvements, equipment and library books or materials for the System's institutions and for U. T. System Administration. Capital improvement needs of the institutions are extensively evaluated on an ongoing basis and incorporated into a six-year Capital Improvement Plan.

U. T. Austin

Pursuant to the terms of the *Texas Constitution*, U. T. Austin is the only U. T. System institution other than U. T. System Administration eligible to directly receive resources from the AUF for support and maintenance purposes.

U. T. Austin depends on academic excellence funds from the AUF for needs such as library enhancement; enhancement of academic department operations and the Dell Medical School; specialized science, engineering, and computing equipment; scholarships and fellowships; and support of special units. These special units conduct research, disseminate research and scholarship information to the general public, and provide public service.

U. T. System Administration

Use of AUF to support U. T. System Administration is a constitutional design intended to reduce reliance on general revenue for U. T. System Administration, allowing the legislature to redirect general revenue to other state priorities. The U. T. System Administration depends on funding from the AUF for needs such as major repairs and rehabilitation, equipment, maintenance and operation, salaries and support for units providing assistance to the Board of Regents and the U. T. institutions. U. T. System Administration also administers a shared administrative computing system (ERP) and provides relief from Systemwide shared technology, risk and digital library assessments.

U. T. System Administration is the central administrative office providing leadership and administrative support for System institutions. U. T. System Administration adds value by undertaking certain central responsibilities that result in greater efficiency or higher quality than could be achieved by individual institutions or that fulfill legal requirements. Among the areas requiring more specialized expertise, which can be more efficiently provided by a central administrative unit, are compliance management, internal audit, legal counsel, intellectual property protection, governmental relations, policy planning and development for academic and health-related programs, and various business operation support activities. The business operations include financial reporting, the historically underutilized businesses program, budget, finance, human resources, employee benefits, security, information resources, and real estate. U. T. System Administration also provides support for the development programs of the institutions.

U. T. System Initiatives

The AUF is used to support operational programs at U. T. System Administration and various strategic priorities and initiatives undertaken by the Board of Regents, all of which benefit System institutions and System students. As with the many operational programs provided by System Administration, each of the system initiatives either provides a service across a broad number of institutional campuses or provides oversight and coordination of activities that benefit a broad number of campuses and the students of those campuses. Each of these system initiatives has been reviewed against the applicable constitutional standards to ensure that each is an appropriate expenditure of the AUF. In addition, for each initiative the Board of Regents is asked to make a finding of fact that expenditure of AUF is appropriate under U. T. System Administration's responsibilities to coordinate the activities of the U. T. institutions.

U. T. System has provided appropriate notification to the Legislative Budget Board prior to the Board of Regents taking action on System Initiatives as required by Rider 7 of the AUF appropriation within the General Appropriations Act.

REPORTING AUF SUPPORT AND MAINTENANCE ALLOCATION FOR SYSTEM OFFICE OPERATIONS AND SYSTEM INITIATIVES

The information reported for each activity in both System office operations and System initiatives includes AUF support only. Other non-AUF sources for each activity are listed. U. T. System Administration receives no General Revenue support for System office operations. Each activity includes a detailed description of its purpose and authority.

AUF Online and On-campus Enrollment Growth

\$68,939,116

Description:

In August 2014, the U.T. System Board of Regents approved a special one-time distribution from the PUF to the AUF equal to an additional 1.5 percent as a supplement to the original 5.5 percent distribution. The Board instructed the Chancellor to have each of the nine academic institutions develop a proposal over the subsequent six months to utilize these funds in support of online and oncampus enrollment growth with excellence. A total of \$68,939,116 has been designated for the purpose of supporting online and oncampus enrollment growth with excellence at the academic campuses other than U.T. Austin and \$56,400,000 for U.T. Austin. \$47,862,200 was allocated to fund a Competency Based Education program that is aligned and developed by the U.T. System to systematically improve success, access and completion rates in areas of high employment demand. Any usage is subject to the constitutional restrictions on AUF.

AUF Allocation:

CONAHCYT - National Council of Humanities, Sciences and Technologies

\$21,350,000

Description:

The original allocation of \$5 million in May 2016 and an additional allocation of \$5 million in November 2019 established the basis for programs of cooperation between UT System and the National Council of Humanities, Science and Technology (CONAHCYT) of Mexico to promote and strengthen relations between the United Stated and Mexico in regards to higher education and research. The programs supported through this agreement include Mexican PhD student education at UT System institutions, exchange of postdoctoral fellows, exchange of non-degree students and faculty, and collaborative research projects. In August 2024 \$11,350,000 was allocated to provide program and administration support for an additional five years. AUF will only be used to support UT System staff and program activities at UT Austin.

Regents' Research Excellence Program

AUF Allocation:

\$55,000,000

Description:

In August 2023, the University of Texas System Board of Regents approved this initiative to boost its national research prominence and the state's economy. The funding will support the U.T. System Regents' Research Excellence Program, which will enhance the U.T. System's global research competitiveness. The new initiative will provide funding for faculty and postdoctoral researcher salaries and benefits to accelerate the rate of growth of high-quality research by the U.T. System. The initiative will establish U.T. System communities of practice and participating faculty will actively collaborate with U.T. System institutions. The inaugural phase of the Regents' Research Excellence Program will support an estimated 165 FTE faculty and postdoc hires at U.T. System Administration in support of its research mission.

Program: System Initiative

Activity Name: Regents' Strategic Research Fund

AUF Allocation: \$25,000,000

Description:

In August 2023, the U. T. System Board of Regents adopted and implemented a goal for U.T. System to boost its national research prominence and the state's economy and to enhance the U. T. System's global research competitiveness by establishing the U. T. System Regents' Research Excellence Program and then in August 2024 established the Regents' Strategic Research Fund. The Regents' Strategic Research Fund is proposed to provide the support required to continue to develop capabilities that align with current or emerging state or federal priorities, advance research programs from prominence to preeminence, and to support collaborative engagement with industry and agencies, while enhancing the competitiveness of Texas and its research universities. This program, in combination with other investment funds, ensure that the U. T. System and U. T. institutions achieve national research prominence at the highest levels, in areas of critical need and importance, and continue to help drive the state's innovation economy.

Promise Plus Endowment Supplement

\$35,000,000

Description:

On February 24, 2022, the Board of Regents allocated funding of \$300 million and approved the creation of The University of Texas System Board of Regents' Promise Plus Endowment (Promise Plus), an endowed fund to be used to expand existing programs that supplement federal, state, and institutional grants to cover the full cost of tuition, mandatory fees, and other costs of attendance for eligible resident, full-time undergraduate students who have unmet financial need at U. T. academic institutions other than U. T. Austin. In November 2024, the U. T. System Board adopted a goal that each academic institution establish their respective family income eligibility level for students participating in the Promise Plus program at a minimum of \$100,000 subject to the institution having sufficient funds to achieve the goal. This supplement of up to \$35 million of Available University Funds (AUF) provides Promise Plus support at U. T. System Administration for eligible students at U. T. System academic institutions other than U. T. Austin in furtherance of the U. T. System Administration's responsibility to provide coordination of the activities of the U. T. System and to implement the Board's family income goal.
