Following a report by Doctor Hickey on the physical plant of Anderson Hospital and a report by Doctor Walter Burdette on the programs in the institution, Chairman Erwin recognized all members of the Board of Visitors in attendance, expressing gratitude for their presence. He assured the group that the Board of Regents of The University of Texas System lacks no dedication to M. D. Anderson Hospital and Tumor Institute, stating that the equipment and treatment of cancer at Anderson Hospital is of the highest quality. Chairman Erwin stressed the point of how impressed he was to see the poor and the ethnic minority groups who are suffering from this disease getting the best care possible in the world.

APPRECIATION TO WELCH FOUNDATION. -- President Hackerman reported that out of a total grant of \$1,388,000 to The University of Texas System recently received from the Welch Foundation, \$788,000 was for The University of Texas at Austin. Chairman Erwin expressed gratitude to the Welch Foundation and to Vice-Chairman Josey as a member of the Foundation for the substantial grants the Foundation has made over a long period of time to the various components of The University of Texas System. Without this support, he said, activities at all of the institutions would have been greatly diminished.

REPORT OF ACADEMIC AND DEVELOPMENTAL AFFAIRS COMMITTEE (Pages 10-15). --Committee Chairman Kilgore filed the following report of the Academic and Developmental Affairs Committee and moved that it be amended by adding the following resolution:

U. T. System: Principles to Correct Educational Deficiencies; Report on Status of Reorganization of College of Arts and Sciences at U. T. Austin and Authorization to Improve College of Arts and Sciences. --

WHEREAS, The Board of Regents received from System Administration the following written statement of System-wide principles as appropriate to the correction of educational deficiencies:

1. That teaching remain as the primary function of the faculty. The System Administration is acutely aware of the dedication of the faculty to this principle, and reaffirms it here in order that the necessary resources may be provided to permit its fuller implementation.
2. That excellent teaching be recognized, rewarded financially, and made to serve as a basis for faculty promotion.
3. That research and assessment procedures be established to insure that the instruction of large numbers of students is of the highest quality possible.
4. That the quality of teaching be continually improved at all levels and that appropriate incentives and assistance be provided to insure such improvement.
5. That any reorganizations in The University of Texas System be focused on the educational needs of the students. To wit:
 - (a) That the graduate of The University of Texas System be an independent individual aware of his own culture and heritage, able to analyze problems, relate his findings to a broad base of knowledge, generalize from his findings and experience, and act effectively to improve society and himself.
 - (b) That the student already committed to a profession or career be educated to cope with a wide range of problems in his field with as broad an understanding as possible of the present and future effects of his professional decisions upon all members of society.

- (c) That the student who is not yet committed to a career or profession be provided with a wide range of alternatives, expert assistance and advice in making his career decisions, and an education for the changing world in which he will live; and that he be free of pressures to make a premature commitment to a career.
6. That adequate staff be provided in an appropriate administrative structure to facilitate the accomplishment of the above objectives.

WHEREAS, The Board of Regents also received from System Administration a written report on the status of the reorganization of the College of Arts and Sciences at The University of Texas at Austin. The statement suggests that the problems of undergraduate education in the College of Arts and Sciences represent a major challenge to the continuing excellence of The University of Texas at Austin and that the solution must be actively developed and implemented. System Administration cites the following as key objectives for positive action: expeditious and adequate correction of educational deficiencies repeatedly cited by students, teaching assistants and faculty; enhancement of the quality of the teaching available to students; immediate steps to reduce the impersonal approach to education; and mobilization of the necessary resources to allow the faculty and college administration some relief from long standing burdens.

BE IT RESOLVED BY THE BOARD OF REGENTS, That the two aforesaid statements by System Administration be approved and endorsed by the Board of Regents, and that the authority of the System Administration to utilize all appropriate means to improve and strengthen the educational effectiveness of the College of Arts and Sciences at The University of Texas at Austin be reaffirmed.

The Chairman of the Board was authorized to sign the instrument granting this easement when it has been approved as to content by the Executive Director of the Office of Facilities Planning and Construction and as to legal form by a University Attorney. The Medical Director of the Hospital shall be a member of the clinical faculty of the Medical School, with appropriate academic appointment. The directors of the clinical departments and services of the Hospital may be appointed to the clinical faculty of the Medical School at an appropriate academic level. Other appointments to the clinical faculty will be made when deemed appropriate. The Dean of the Medical School, or his representative, shall be an ex-officio member of the Board of Managers of the Tarrant County Hospital District without vote and may elect to attend or be represented at his discretion.

Sec. 5. FACULTY APPOINTMENTS

(a) The Board of Managers of the Tarrant County Hospital District and the Board of Regents of The University of Texas System agree that faculty status is a strong inducement for attracting well-qualified individuals for teaching positions at the Hospital. The Medical School may grant nontenured clinical faculty appointments to members of the medical staff of the Hospital on an individual basis, subject to approval by the Dean and faculty of the Medical School.

(b) It is recognized by the parties to this affiliation agreement that, in certain instances, it will be mutually beneficial for the Hospital and the Medical School to share

the services of members of the full-time faculty of the Medical School. In such instances, the Hospital will pay the Medical School a pro rata apportionment of the faculty member's compensation, as formulated and negotiated between the Medical Director of the Hospital and the Dean of the Medical School, subject to approval by the Board of Managers and the Board of Regents.

(c) The Hospital will pay a Teaching Honorarium on a per visit basis for Medical School faculty not otherwise supported by the Hospital. The amount of the honorarium will include expenses for travel and will be based upon time and effort, as negotiated between the Medical Director of the Hospital and the Dean of the Medical School, subject to approval of the Board of Managers and the Board of Regents.

(d) Medical School faculty participating in the Hospital's programs will make application and be appointed to the Teaching Consulting Staff of the Hospital in accordance with the bylaws of the Hospital's medical staff.

(e) Full-time Medical School faculty participating in the Hospital's programs will be subject to the personnel and income policies of The University of Texas System. The full-time medical staff of the Hospital with or without clinical faculty appointments will be subject to the personnel and income policies of the Tarrant County Hospital District.

Sec. 6. AMENDMENT AND SUBSEQUENT AGREEMENTS

(a) This agreement may be amended in writing to include any provisions upon which both parties may agree.

(b) The parties to this agreement may make subsequent agreements for the joint employment of personnel and for the pro rata apportionment of compensation of personnel employed, or for the pro rata apportionment of other related costs and expenditures.

(c) Any proposed contract or agreement between the Board of Managers of the Tarrant County Hospital District and any other agency providing medical education, research, or hospital services is subject to review and approval by the Dean of the Medical School when that contract or agreement would substantially alter the character or degree of the teaching or research programs.

Sec. 7. CONFLICTS

The provisions of this agreement take precedence if there is a conflict between the bylaws of the Hospital and the provisions of this agreement, unless otherwise provided by law.

Sec. 8. PERIOD OF AGREEMENT

This agreement is for a period of one year from its effective date and thereafter from year to year unless terminated by either party on six months' written notice.

Sec. 9. EFFECTIVE DATE

This agreement takes effect on _____, 19____.

EXECUTED by the parties on the day and year first above written.

2. Dallas Medical School: Authorization to Request Coordinating Board for Ph. D. Program in Clinical Psychology. --Approval was given to request the Coordinating Board, Texas College and University System to permit a Ph. D. Degree Program in clinical psychology to be awarded by The University of Texas (Southwestern) Medical School at Dallas without the required joint sponsorship with The University of Texas at Austin as is currently required.

3. San Antonio Medical School: Request Permission from Coordinating Board to Establish M. A. and Ph. D. Degree Program in Biochemistry. --Approval was given to establish an M. A. and Ph. D. REPORT OF BOARD FOR LEASE OF UNIVERSITY LANDS. --Regent Peace reported that at the meeting of the Board for Lease of University Lands held on December 16, 1969, several pooling agreements as reflected in the minutes of that meeting were approved. It is anticipated that such will add some \$4,300,000 to the Permanent University Fund.

With respect to the 57th Auction of Oil and Gas leases on University Lands, Regent Peace reported that the sale was better than had been anticipated on account of the conflicting date with the sale of oil and gas leases by the Interior Department on the Offshore Lands on the Louisiana Coast. Out of 113 tracts comprising some 37,636.362 acres, bonuses of \$1,736,500 were realized -- an average bonus of \$46.14 per acre.

COMMITTEE OF THE WHOLE
(Pages 36-90)

The following actions of the Committee of the Whole as presented in a report by Chairman Erwin were approved without objection upon motion of Regent Williams, seconded by Regent Ikard:

REGENTS' RULES AND REGULATIONS, PART ONE, AMENDMENTS TO CHAPTER VI, SECTION 6. --The necessary rules were suspended and Chapter VI of the Regents' Rules and Regulations, Part One was amended by adding to subsection 6. 12 a new subdivision 6. 124 to read as follows and to be effective immediately:

- 6.124 In compliance with the other provisions of this section, and with the approval of the institutional head or his delegate, a registered student organization may solicit or raise funds for membership dues, in the vicinity of the building in which registration is carried on, during authorized periods of registration preceding each semester or summer session, subject to the following conditions. The organization may not solicit membership dues by shouting or harassing or in any manner coercing a student into becoming a member of the organization.

U. T. SYSTEM: 1970-71 PERSONNEL PAY PLAN. --Approval was given to the amendments to the 1969-70 Personnel Pay Plan for each of the component units of The University of Texas System as recommended by the Administration to become effective September 1, 1970. The 1969-70 Personnel Pay Plan with these amendments incorporated (the 1970-71 Personnel Pay Plan) is set out below on Pages 37-85 .

In connection with the adoption of the 1970-71 Pay Plan, the following permissive policies which are to be implemented only within funds available were adopted:

1. All new appointees to positions within the Personnel Pay Plan may be considered for a salary adjustment on the basis of meritorious service after the completion of six months service.
2. All appointees to positions within the Personnel Pay Plan may be considered for a salary adjustment on the yearly anniversary date of their appointment, or at September 1, but not both, and in either case action taken must be in accordance with the Budget policies and Limitations for "Merit salary advances" approved by the Board of Regents.
3. When adjustments are made in the salary ranges of positions in the Personnel Pay Plan, consideration may be given for salary adjustments to maintain the same relative positions within a range on an individual basis to recognize experience and service with the Institution.

U. T. SYSTEM: 1970-71 BUDGET POLICIES AND LIMITATIONS FOR PREPARATION OF OPERATING BUDGETS, AUXILIARY ENTERPRISES, CONTRACT AREAS, CURRENT RESTRICTED FUNDS AND SERVICE AND REVOLVING FUND ACTIVITIES. --The following budget policies and limitations for the General Operating, Auxiliary Enterprises, Contract Areas, Current Restricted Funds and Service and Revolving Fund Budgets for the fiscal year 1970-71 were approved. The institutional heads were instructed to write the "first draft" of their operating budgets conservatively in accordance with these policies and to follow the 1970-71 budget calendar set out below for the preparation of the 1970-71 budgets:

1. Over-all budget totals, including reasonable reserves, must be limited to the funds available for the year from General Revenue Appropriations, revised estimates of local income, and limited use of institutional Unappropriated Balances.
2. Selective merit salary advances may be provided for the faculty and professional staff. In the case of faculty, merit advances should be on the basis of teaching effectiveness.

In the case of the Academic Institutions, for which Faculty Salaries are calculated by "appropriation formulas," estimated amounts to be allocated from the Coordinating Board "kitty" should generally limit amounts budgeted for new positions. The increased appropriations for Faculty Salaries as stated in the Appropriations Bill are generally intended for granting faculty salary rate increases.

3. Merit salary advances for classified personnel in accordance with the Personnel Pay Plan policies approved by the Board may be given only to individuals who will have been employed by the institution for at least 6 months as of August 31, 1970. The number of individuals recommended for merit increases may not exceed one-half of the total institutional classified personnel staff as of March 1, 1970.
4. New positions should be provided only where increased workload justifies.
5. Maintenance, Operation, and Equipment items should be based only on such amounts as are needed but increases are not to exceed 15% in total over amounts budgeted in 1969-70.

Justify all increases in Maintenance and Operation and Travel with performance type data. Prior year expenditures are not to be considered as adequate justification.

6. Travel funds are to be shown as separate line items.
7. All requests for Special Equipment must be supported with detailed description and justification.
