HOGG FOUNDATION FOR MENTAL HEALTH ALLOCATIONS FOR PROGRAM SUPPORT

Allocations were made from the Hogg Foundation for Mental Health Trustee Approved Program Support account to the following institutions and agencies:

Houston Child Guidance Center, Houston, Texas - \$10,621.00

1. The Hogg Foundation Executive Committee recommends funding of this grant in the amount of \$10,621.00 to the Houston Child Guidance Center for the period of July 1, 1980 to December 31, 1980.

These funds will be used to increase the number of community-oriented child psychiatrists in the Houston area. Because of the difficulty in recruiting highly-qualified child psychiatric residents, the amount requested for the fourth year of this five-year grant was much lower than the amount outlined in the original grant proposal. The supplemental amount reflects the support needed for the additional child psychiatric fellow who began in July.

Dr. James S. Robinson and Mr. Michael H. White, who are responsible for the administration of the project, will submit both a fiscal accounting and a narrative evaluation of the program at the close of the grant period. Dr. Wayne H. Holtzman and Dr. Ralph E. Culler will serve as liaison persons for the Hogg Foundation.

Law <u>Enforcement Information</u>, Inc., Austin, Texas - \$1,500.80

2. The Hogg Foundation Executive Committee recommends approval of a one-time grant in the amount of \$1,500.00 for the period of December 1, 1980 through November 30, 1981 to Law Enforcement Information, Inc.

Law Enforcement Information is a community-based organization with a board composed of representatives of the Austin Police Department, the Police Association, other public safety agencies in Austin and the surrounding area, and community members. The goals of the organization are to provide a vehicle for fostering understanding between the community and various law enforcement agencies; to contribute to the continuing education process of law enforcement personnel; and to increase communication among parties involved in the law enforcement process. The new aspect of the publication is to present mental health related information to its readers. Content to be included deals with stress on the part of police officers; special considerations of emotionally disturbed persons; accompanying emotional problems of alcoholism; and family violence. By presenting these issues in a neutral forum, the law enforcement feature publication fulfills an important role in reinforcing police training and in encouraging stress-reducing behaviors. The Hogg Foundation grant will be combined with \$2,100 raised in local communities. The majority of Hogg Foundation funds will be used to pay printing and mailing costs; the remaining amount will go toward related expenses.

Mr. Howard Brunson, Chairman of Law Enforcement Information, Inc., is responsible for administration of the project and will submit an interim progress report in June, 1981, and final fiscal and evaluative reports in December, 1981. Hogg Foundation liaison to the project will be provided by Drs. Terrence Tutchings and Ralph Culler.

Texas Congress of Parents and Teachers, Austin, Texas - \$23,484.00

3. The Hogg Foundation Executive Committee recommends for approval a second and final-year grant of \$23,484.00 to the Texas Congress of Parents and Teachers in support of their proposal entitled, "Parent Resource Center."

This grant is for the period January 1, 1981 through August 31, 1981.

This second year of funding is for completion of activities initiated by the Texas Congress of Parents and Teachers in five major goal areas. These include the identification of parent attitudes and needs in a variety of parenting roles ranging from helping children to be better students to the prevention of drug and substance abuse; the identification of education resources to be used by parents; planning for the coordination and dissemination of useful and accepted parenting information through PTA councils and districts and other agencies and organizations working with this population; addressing the special needs of low-income minority parents in selected areas of the state; and the ongoing coordination and dissemination of information through seminars and related efforts. The first year's activities have succeeded in identifying special needs, and the continuation of the program in the second year will allow the tailoring of numerous sources of information and other resources to better meet the diverse needs of different kinds of parents.

Salaries and the fringe benefits of personnel will be supported by \$20,750 of Hogg Foundation funds, while an additional \$2,730 will be directed toward other expenses relating to seminars, travel, supplies, and computer services. The Texas Congress of Parents and Teachers has provided a match of \$18,938 in budgeted funds.

Mr. Alvis Bentley, Executive Director of the Texas Congress of Parents and Teachers, is responsible for administration of the project. He will submit an interim progress report in May of 1981 and a final evaluative report and fiscal accounting in September. Mr. Reymundo Rodriguez and Dr. Terrence Tutchings will serve as liaisons for the Hogg Foundation.

St. Edward's University, Austin, Texas

Alcoholic Counseling and Education for Two Austin Colleges, Huston-Tillotson College and St. Edward's University - \$8,748.00

4. The Hogg Foundation Executive Committee recommends for approval a grant in the amount of \$8,748.00 for partial support of the Alcohol Abuse Counseling and Education Program at Huston-Tillotson and St. Edward's University. The program has had two impressive years of work with students and faculty on both campuses. This grant represents the final installment of a three-year grant.

Because of the need to deliver services to students and staff during the summer school, the grant period for the third year will start on December 1, 1980 and end on September 30, 1981. The funds from the Hogg Foundation will be combined with an almost equal amount from the Texas Commission on Alcoholism and direct expenses by the institutions. Foundation funds will be used to pay part of the salary of the counselor and for office supplies and materials.

Although the program is a joint one, St. Edward's University is the official recipient of the grant, and Mr. Richard H. Kinsey, Assistant to the President of St. Edward's, will be responsible (or administering the funds and submitting both a fiscal accounting and narrative report of the project in late September or early October, 1981.

Ms. Adrian Fowler and Dr. Charles Bonjean are liaison persons for the Hogg Foundation on this project.

The University of Texas at Dallas, Dallas, Texas

Sibling Interactions: A Neglected Aspect of Family Influences on Children's Social Development - \$3,754.00

5. The Hogg Foundation recommends for apporval a one-time grant in the amount of \$3,754 to The University of Texas at Dallas Program in Psychology and Human Development for the period of December 1, 1980, through June 30, 1981. This amount is to provide half-time salary and fringe benefits for the graduate research assistant involved in the project entitled, "Sibling Interaction: A Neglected Aspect of Family Influences on Children's Social Development," under the direction of Professor John W. Santrock.

The significance of this reserach lies in the potential contribution the study can make to the almost neglected field of sibling influence in children's social development. Professor Santrock points out that siblings are often more influential socializing forces than parents or other care providers.

Professor John W. Santrock is responsible for the administration of the project and will submit a final evaluative report and fiscal accounting not later than July 31, 1981. Dr. Terrence R. Tutchings will serve as Hogg Foundation liaison to the project.

The University of Texas Health Science Center at Dallas, Dallas, Texas

Institution of an Operations Research Unit - \$20,542.00

6. The Hogg Foundation recommends for approval an initial nine-month's grant of \$20,542 for the period January 1, 1981 to September 30, 1981, to The University of Texas Health Science Center at Dallas. This grant will support phase one of a project establishing an Operations Research Unit in the Department of Psychiatry at John Peter Smith Hospital in Fort Worth. Phase one will make it possible to launch a comprehensive information system for monitoring treatment programs, providing information on deficiences with the local mental health system, and accumulating data on patients that will be useful in future research on local systems for providing mental health services.

Additional funds for the next two years thereafter will be set aside to support the second and third phases of this project, once the implementation of phase one has been completed.

Dr. M. Basheer Ahmed, Professor of Psychiatry at The University of Texas Health Science Center at Dallas and Director of Psychiatry, John Peter Smith Hospital in Fort Worth, will be responsible for the administration of the program. He will submit a narrative report and fiscal accounting of the first phase of the program, along with a request for funding of phase two, prior to October 1, 1981. Drs. Wayne Holtzman and Terrence Tutchings will serve as Hogg Foundation liaisons for the project.

The University of Texas Health Science Center at Houston, Houston, Texas

Program for School Liaison for Long-Term Survivors of Childhood Leukemia - \$20,224.00

7. The Hogg Foundation Executive Committee recommends funding of a grant to The University of Texas Health Science Center at Houston for a program entitled, "Program for School Liaison for Long-Term Survivors of Childhood Leukemia," in the amount of \$20,224.00, for the period of

January 31, 1981 through December 31, 1981. These funds will be used to support a masters-level psychologist who will be added to the staff of The University of Texas Medical School. This new staff person will assess the school performance of children who are long-term survivors of leukemia and will also serve as a liaison between the schools and the staff of the M.D. Anderson Hospital and Tumor Institute. The purpose of this liaison will be to aid the school in remediating children's academic and behavioral problems secondary to treatment for leukemia.

Dr. Betty Pfefferbaum and Dr. Donna Copeland, who are responsible for the administration of the project, will submit both a fiscal accounting and a narrative evaluation of the program at the close of the grant period. Dr. Wayne H. Holtzman and Dr. Ralph E. Culler will serve as liaison persons for the Hogg Foundation for this project.

The University of Texas at Austin

Department of Educational Psychology

Day Care Children's Relationships with Mothers and Substitute Caregivers - \$13,990.00

8. The Hogg Foundation recommends for approval a grant of \$13,990 for the period January 1, 1981, to August 31, 1981, to The University of Texas at Austin Department of Educational Psychology's project on "Day Care Children's Relationships with Mothers and Substitute Caregivers." The grant is intended primarily to cover the salaries of research assistants and other personnel, minor travel within Travis County, and equipment, materials, and supplies needed to conduct the research.

The study will cast new light upon the relationships between adult-infant attachment and other socio-emotional characteristics related to healthy infant development. With many infants in our society receiving primary care from substitute caregivers rather than mothers, it is of crucial importance to understand better these relationships. The Foundation's funds should make it possible to conduct the initial research necessary to obtain subsequent funding for large-scale studies from the National Institutes of Health or from the National Institute to of Mental Health.

Drs. Christine Anderson and Ricardo Ainslie will be responsible for the administration of the project. They will submit a final narrative and fiscal accounting on August 31, 1981. Dr. Wayne Holtzman and Mrs. Bert Kruger Smith will serve as Hogg Foundation liaisons to the project. (RBC# H-5)

School of Nursing

Impact of Neonatal Attitudes, Beliefs, and Behavioral Patterns in Infant Development - \$4,964

9. The Hogg Foundation Executive Committee is recommending for approval a one-year grant in the amount of \$4,964 for the period January 1, 1981 to December 31, 1981, to The University of Texas at Austin School of Nursing. These funds will be used to investigate the relationship of psychological characteristics of new mothers and their infants in the first month of life as they relate to patterns of attachment at the end of the first year of life.

Data previously gathered by a grant from the U. S. Public Health Service on more than 100 mothers and their infants in the first month of life will be supplemented with data to be collected from 60 of these mothers and their infants at the end of the first year of life. The research outcomes should provide a more definitive picture of the role of specific early experiences in influencing infants' attachment patterns. The results are likely to be of interest to both academics and health care providers.

School of Nursing (Continued)

Dr. Lorraine Walker will be responsible for administering the project and will submit both a fiscal accounting and a narrative evaluation of the project at the close of the grant period in December, 1981.

Dr. Ralph Culler and Dr. Charles M. Bonjean will serve as liaison persons for the Hogg Foundation for this project. (RBC $^{\#}$ H-4)
