THE UNIVERSITY OF TEXAS

SYSTEM ADMINISTRATION

U.T. BOARD OF REGENTS' MEETING

JUNE 5-6, 1986

1986-87 HOLIDAY SCHEDULE AND VACATION ALLOWANCE

Appropriations Bill for fiscal year 1986-87 provides for 13 of the 14 holidays ified in Article 4591, Vernon's Texas Civil Statutes, as amended. The Approtions Bill does not provide for the observance of Columbus Day and any day on h an election is held throughout the state (General Election Day). Therefore, iscal year 1986-87, the resulting total is thirteen (13) days.

Appropriations Bill also provides for an additional three (3) days of special a time specifying the day following Ihanksgiving and the day before and after stmas. It further appears that Section 8(b) provides that "the administrative " may, at his or her discretion, give an employee a day of leave on the third ay in January in observance of Martin Luther King, Jr.'s birthday. This day a lieu of one of the preceding special leave days. As you know, it has been practice of The University of Texas System to close all offices, and operations a possible, on the special leave days and not require a skeleton workforce to yout official business. Therefore, institutions may wish instead to consider ting vacation leave to those employees who wish to observe Martin Luther King, s birthday.

ng the 1986-87 fiscal year, one (1) of the specified holidays falls on Saturday tannot, therefore, be observed. Also following our past practice, we are locating twelve (12) hours ($1\frac{1}{2}$ days) from holiday time to vacation time in lieu of. The balance available for holidays will, therefore, be reduced by a total velve (12) hours resulting in ten and one-half ($10\frac{1}{2}$) days, the observance of 1 can be adjusted in order to provide more effective work schedules (Article .3, Vernon's Texas Civil Statutes). Added to these ten and one-half ($10\frac{1}{2}$) days are the three (3) days indicated in the preceding paragraph, namely nber 28, December 24, and December 26, 1986, which are identified as special 2 days.

results of the foregoing action will provide in 1986-87 thirteen and one-half holidays and special leave days, and a total of twelve (12) working days all vacation leave for University employees with less than two (2) years service. It is accordingly eased by one and one-half $(1\frac{1}{2})$ days (12 hours). See the following schedule:

1986-87 HOLIDAY SCHEDULE AND VACATION ALLOWANCE (Continued)

bugh all employees are encouraged to utilize vacation in the year which accrued, byees may carry forward unused vacation from one fiscal year to the next. The dule presented above indicates maximum carry forward authorized by the Approtions Bill (the one and one-half [1½] days for holidays converted to vacation must be taken in the 1986-87 fiscal year).

s recommended for the thirteen and one-half $(13\frac{1}{2})$ holidays and special leave days following dates to be observed for fiscal year 1986-87:

THE UNIVERSITY OF TEXAS SYSTEM

U. T. BOARD OF REGENTS' MEETING

JUNE 5-6 1987

HOGG FOUNDATION FOR MENTAL HEALTH

AND IMA HOGG FOUNDATION

Allocations were made from the Hogg Foundation for Mental Health and Ima Hogg Foundation to the following institutions and agencies:

 Child Advocates, Inc. Houston, Texas

Court Appointed Special Advocate Program - \$25,000

The Executive Committee of the Ima Hogg Foundation recommends for approval a first year grant for the period May 1, 1986 to April 30, 1987. The purpose of the program is to provide a cadre of specially trained volunteers that can be assigned by juvenile trial judges to act as advocates for abused children and follow individual child abuse cases through the court system. These volunteers will work with abused children and their families to ensure that immediate and thorough permanency planning for each child occurs at his or her emergency hearing, to provide maximum information for use by the courts in deciding how to dispense with a case, and to reduce the length of time a child spends in temporary placement. Ms. Martha Braniff, Executive Director, will be responsible for administration of the project.

. El Paso Community Foundation

El Paso, Texas

Project Redirection - An Adolescent Pregnancy Pilot Program - \$25,000

The Hogg Foundation Executive Committee recommends for approval a one-time grant for the period March 1, 1986 to March 1, 1987. Project Redirection is part of a national pilot program for teenage parents funded by the Texas Department of Human Resources and the Ford Foundation. The El Paso Community Foundation is serving as the coordinator of this program in El Paso. The goals of the program are to keep the young mothers in high school or to provide vocational training, to offer a comprehensive set of services ranging from medical care to parenting skills, and to prevent additional pregnancies. A key aspect of the program is the use of volunteers who interact with the clients on a one-on-one basis and serve as role models. Support of this program would be consistent with efforts elsewhere in the state in the area of teenage pregnancy and with the Foundation's mandate to support mental health education in Texas. Mrs. Janice Windle, Executive Director will serve as project administrator.

Family Service Center

Domestic Violence Treatment Program - \$20,000

The Ima Hogg Foundation is recommending for approval a first-year grant for the period March 1, 1986 to February 28, 1987. These funds will be used to implement a program designed to break the cycle of family violence by providing services for abusers, their spouses and children. The Family Service Center's existing services will complement the specialized program which has been designed to address the needs of families experiencing violence. The Center's plan to seek referrals from domestic violence courts with program fees assessed in lieu of fines is an innovative approach to eventually making the program self-supporting. Mr. Ed Christman, the executive director will be responsible for the administration of the project.

HOGG FOUNDATION FOR MENTAL HEALTH

AND IMA HOGG FOUNDATION (Continued)

1. Juvenile Court Volunteers of Harris County, Inc. Houston, Texas

Juvenile Count Volunteers of Harris County - \$15,000

The Ima Hogg Foundation recommends for approval a third and final grant for the period March 1, 1986 to February 28, 1987. The Juvenile Court Volunteer Program provides trained volunteers, one-on-one, for troubled youngsters entering the juvenile justice system in Houston. The program has been able to serve a significant number of additional youngsters with the extra staff provided by earlier Ima Hogg funding. Ms. Mary Gready, the Executive Director, will be responsible for the administration of the project.

Texas Research Society on Alcoholism

Continuing Education Seminars for Alcohol Treatment Professionals - \$7,760

The Hogg Foundation recommends for approval a one-year grant for the period March 1, 1986 to February 28, 1987. This grant is for support of continuing education seminars for professionals engaged in the treatment alcoholism. The education program for the first year will consist of four seminars which will provide a large number of alcohol treatment professionals with the latest information on diagnostic tools, techniques for determining populations at risk of becoming alcoholics, and the latest scientific discoveries bearing upon the nature of alcoholism. Dr. Carlton K. Erickson, Parke-Davis Professor of Pharmacy at The University of Texas at Austin, is responsible for the administration of the program.

U. T. Austin - Department of Psychology

Dating Violence Among College Students - \$9,911

The Hogg Foundaton recommends for approval an initial grant for the period March 1, 1986 to August 31, 1986. The proposed research will encompass male and female college students involved in dating relationships and will provide a new perspective on the extent to which physically abusive behavior occurs among young adults. The focus on personality, attitudinal, and behavioral factors that prove to be related to such abusive conduct, will lead to a better understanding of the psychodynamics in physical abuse among young couples. This new knowledge may be useful as a basis for designing educational and intervention programs aimed at reducing such abuse. Dr. Janet T. Spence, Ashbel Smith Professor of Psychology, is responsible for the administration of the program. (RBC D67)

HOGG FOUNDATION FOR MENTAL HEALTH

AND IMA HOGG FOUNDATION (Continued)

7. U. T. Austin - Department of Educational Psychology

Development of Self-Management Sills in Depressed Children - \$14,364

The Hogg Foundation recommends for approval an initial seven-month grant for the period February 1, 1986 to August 31, 1986. The experimental research design that has been developed for comparing the specific kind of cognitive behavioral treatment and standard psychotherapy offered as treatment for depressed children and their families should provide now information about the relative efficacy of these two different kinds of treatment that will be studied in Phase II. Phase I will be devoted largely to the development of appropriate instruments for screening and identifying depression in children and for assessing the family environment and characteristics of the parents. The project is greatly strengthened by close collaboration with behavioral scientists at Yale Child Study Center, at the University of Houston, and the University of Wisconsin. Childhood depression is recognized increasingly as a serious mental health problem that has been too long neglected. Dr. Kevin D. Stark, Assistant Professor of Educational Psychology, will be the administrator of the program. (RBC D68)

3. U. T. Austin - School of Nursing

Preschool Children's Socio-emotional Development - \$400

The Hogg Foundation Executive Committee approves a one-time supplementary grant for the period April 1, 1986 to July 1, 1986. These funds will be used to complete longitudinal research on the effects of endogenous and environmental variables in the socio-emotional development of preschool children. The school received an initial grant from the Foundation for this study in April 1985. Computer analysis of data proved to be more complex than initially predicted. This supplementary grant will permit a complete analysis and development of a narrative report. Dr. Lorraine Walker, Luci B. Johnson Centennial Professor in Nursing at The University of Texas at Austin, will continue serving as the project administrator. (RBC D71)
