EAC MEETING HIGHLIGHTS

EAC members were welcomed by MD Anderson in Houston. They were able to hear updates from both the Faculty Advisory Council chair, David Coursey, PhD, and the Student Advisory Council, Savannah Seely. Members were able to see the cutting edge medical technology at the MD Anderson Proton Therapy Center and how MD Anderson is preparing its infrastructure for its hybrid and remote work force. EAC took a great deal of time to discuss the future of the EAC and where we see it moving going forward.
